

Wednesday 6th January 2021

Dear Parents and Carers,

Critical Workers

We have received an enormous amount of requests for places in school for the children of critical workers and so we had to send a text earlier advising that applications for places closed at 10.30am today.

The aim is to ensure that all children who have parents/carers that are critical workers and **cannot** be looked after at home during school hours are able to receive a critical worker place.

The nature of the new Covid-19 variant has made it vital that we limit numbers in order to minimise the risk of transmission. The safest place for us all at the moment is at home and therefore we urge all who have requested a place to reconsider your circumstances if there is an adult at home.

As advised previously we will send out further information today to those who have already requested a place.

Nursery Provision

Our Nursery currently is open but this will remain under review. We would however request that, in the interest of everyone's health, safety and wellbeing that wherever possible parents and carers **do not bring their child** unless it is absolutely necessary.

If you do intend to bring your child to nursery please email us by 5.00pm today at admin@greatmoor-inf.stockport.sch.uk.

Thank you for your ongoing support at this challenging time.

Yvonne Dobson - Headteacher
